

IC200

USB Dongle 3/4G + Bluetooth + 1167Mbps Dual Band Mu-MIMO 802.11 a/b/g/n/ac wave 2 WIFI

The Galgus USB dongle IC200 is the best and simplest option for portable indoor wireless communications type of 802.11ac, with 3/4G and bluetooth additional connectivities,

It is the ideal product for high data speed teleworking, portability and IoTs. It allows interconnectivity with the computer through the 3/4G networks, but also with all other devices connected (included all type of IoTs) to the high-speed WIFI network generated. It is the best option to extend the office, create your office environment, to wherever you could be with your computer.

Main Characteristics

Antenna	<ul style="list-style-type: none"> • Omnidirectional internal antenna LTE/UMT/GSM + DIV LTE/UMTS • Dual 2.4GHz+5GHz 1x1 Mu-MIMO
Data speed	FDD-LTE: 150Mbps DL + 50Mbps UL UMTS (HSPA): 42Mbps DL + 5.76Mbps UL
Chipset	Qualcomm MDM9207 CPU ARM Cortex A7. 1.3GHz RFFE: Qualcomm RF360 Front-End solution
2/3/4G	GSM: B3/8 UMTS/3G : B1/5/8. HSPA, SCDDMA FDD LTE + TDD LTE: B1/3/5/7/8/20/38/40/41
WIFI	802.11ac 1x1 (1 Stream) Dual Band: 2.4GHz/300Mbps +5GHz/867Mbps
Bluetooth	Low Energy V4.1
Location	Beidou, Galileo, GLONASS, GPS Satellite Systems Support
External interfaces	<ul style="list-style-type: none"> • Micro USB 2.0 • Mini SIM Card slot • Micro SD Card slot • Reset Button (Long press 3Segs)
Dimensions	90.5 x 28.6x12 mm
S.O. supported	Windows XP/7/8/10, Android , Linux, iOS, Mac
Languages supported	English, Chinese, Spanish, French, Italian, German
Management systems	Web UI (192.168.43.1) , Galgus Cloud Manager
LED indicator	LED visual signal/data
Powering	USB port
